TiPS and D-RoTH Declare Partnership: Agreement Creates Leading Resource for Alarm Management Training and Technology

Georgetown, TX and Shaker Heights, OH; April 27, 2005 – TiPS, Incorporated (Georgetown) and D-RoTH, Incorporated (Shaker Heights) have formed a partnership that establishes single-point access to best-in-class alarm management solutions including training, tools and project technology. As members of an elite community of vendors specializing in the design and delivery of alarm management products and services, TiPS and D-RoTH provide unmatched capabilities.

Alarm management is a proven way to deliver important financial and safety improvements to petrochemicals, power, pharmaceuticals, pulp and paper, and a host of other manufacturing enterprises. Alarm management addresses inefficiencies in operations, delivering more output of higher quality by leveraging existing assets, while actually improving the margin of safety. TiPS and D-RoTH will combine their experience and knowledge to help manufacturers more quickly realize the benefits of alarm management.

ABOUT TIPS – TiPS develops and distributes LogMateAMS, an advanced alarm management software package and provides the highest quality of services available from any vendor in the alarm management field. With the largest alarm management specific customer base in the industry, TiPS provides an unequalled resource for alarm management software and services. TiPS can be found online at www.tipsweb.com.

ABOUT D-RoTH – D-RoTH is the consulting business success of Doug Rothenberg, a formative member of the Alarm Management Task Force and the ASM Consortium and a member of the team that designed the EEMUA 191 best practices guidelines. He provides state-of-the-art alarm management training and consulting services worldwide. D-RoTH can be found online at www.d-roth.com.
