FOR IMMEDIATE RELEASE

TiPS, Inc. Announces Release of LogMate® Suite 7.30

After 20 Years, LogMate Enhancements Continue to Improve the User Experience

Georgetown, TX –TiPS, Inc. the premier global alarm management product and service company is proud to announce LogMate Suite 7.30 is now available. LogMate, the most comprehensive alarm management solution available, now has improved administrative management with User Account Controls (UAC). Enhancements to compliance with UAC guidelines will simplify the user installation experience.

Update Details

LogMate Capture:

- Support has been added for ClearSCADA via OLE DB to improve robustness of the data collection reducing risk of data interruption.
- Improved administrative management no longer disables User Account Control (UAC). Capture now runs as a service with UAC while continuing to require administrative rights to run the program.

LogMate Signal:

- Improved administrative management no longer disables User Account Control (UAC). Signal now runs as a service with UAC while continuing to require administrative rights to run the program.
- Support for pagers has been removed from the list of available transmitter options.

LogMate Bug Fix

- When running as a service, Signal will now trigger an application to launch.

Bob Weibel, president of TiPS stated, “LogMate has been available for over 20 years now, and we take great pride in how the product has evolved during that time. However, we believe it is imperative that we continue enhancing LogMate to meet the ever changing demands of our user community. We are pleased with the benefits LogMate Suite 7.30 delivers to our users and are extremely excited by the improvements we are already working on for the next generation release.”

About TiPS Incorporated:

TiPS incorporated has been setting the standard in alarm management since introducing LogMate®, the first full-featured, commercially available alarm management software in 1990. TiPS is known as The Alarm Management Software Company because alarm management is not just one of the things we do, it is what we do! With over 20 years of history, TiPS continues to deliver best-in-class process alarm management products and services worldwide.
